

“Forensics Investigations Through Corroboration”

Forensic investigation is the **gathering and analysis of all crime-related physical evidence** in order to come to a conclusion about a suspect.

We will:

- Thoroughly document the incident looking at all facts surrounding the situation or allegation
- Follow all relevant leads to their logical conclusion and focus on the corroboration of all key investigative facts
- Identify the cause
- Identify the suspects involved in a crime / act of misconduct
- Compile information that proves or disproves an allegation or that implicates or exonerates an individual suspected of committing a crime or misconduct

Some of the investigations we cover:

- Incident investigations
- Misconduct
- Compliance
- Computer Forensics
- Background investigations
- Preemployment screening
- Resume Fraud
- Fraud
- Theft
- Workplace violence
- We assist and prepare the CCMA cases
- We assist and prepare the Criminal cases
- Polygraphs (Outsourced)
